Annual Hand Review Course & Joint Scientific Meeting – 2016
February 25 – 27, 2016 (Thu – Sat)

Advanced Surgical Training Centre, National University Health System
Singapore

Welcome Message

A Warm Welcome to Singapore

We are excited to host the Combined Scientific Meeting of Singapore Society for Hand Surgery (SSHS) and Società Italiana Chirurgia della Mano (SICM) in Singapore from 25 to 28 February 2016. The meeting brings together international and regional experts to discuss '*Controversies in Hand Surgery*'.

The combined meeting commences on 25th February concurrently with the 25th edition of the Annual Hand Review Course. The Hand Review Course is an instructional course targeted at surgeons in training to address core areas in Hand Surgery and provides updates in these areas. The Combined Scientific Meeting focuses on '*Controversies in Hand Surgery*' and speakers will explore recent updates on the current scientific understanding of the hand and wrist, discuss the impact of such understanding on treatment strategies, and consolidate evidence-based outcomes that we have to date.

The post-congress wrist arthroscopy workshop is a collaboration between SSHS and European Wrist Arthroscopy Society (EWAS) and will feature well known faculty members to share their experience and techniques over two days with basic and advanced wrist arthroscopy.

Once again, it gives us great pleasure to invite you to join us in the exchange of ideas and knowledge. More importantly, this would another opportunity for continued fellowship and celebrations to strengthen the Hand Surgery and Reconstructive Microsurgery fraternity.

We look forward to hosting you in Singapore soon.

Sandeep J Sebastin

President
