The

WRIST COURSE

The Singapore General Hospital Dept of Hand Surgery and the Derby Hand Club are proud to announce our first collaboration in bringing you this exciting program in Singapore.

We invite you to experience an unique advanced course on the wrist, the first of its kind in this region. During this course, you will revise and gain a greater appreciation for the complex anatomy and biomechanics of the wrist, how instability develops, how it is diagnosed and treated, and how to manage fractures of the distal radius. A series of didactic lectures by internationally distinguished wrist experts will bring you up to date with the latest developments in wrist problems. Then, hone your skills under their guidance during the hands-on workshops on distal radius fracture fixation, cadaveric wrist dissection and wrist arthroscopy.

To round off your educational experience in Hand Surgery, do come early and participate in the Singapore Society for Hand Surgery's Annual Hand Review Course from 6-7 March.

We look forward to your participation!

A/Prof Agnes Tan

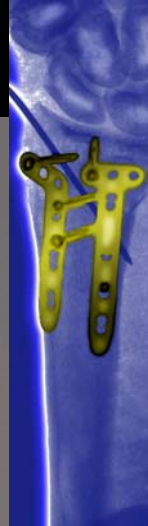

Dr Soo-Heong Tan

Organizing chairpersons

DISTAL RADIUS FRACTURE FIXATION

A series of lectures covering the latest thinking in distal radius fracture fixation. Familiarise yourself with the latest equipment on sawbones, guided by qualified AO instructors. Discuss your most difficult cases with the experts.

HANDS-ON CADAVERIC WRIST DISSECTION

Learn to expose the wrist safely and adequately. Then learn the favourite reconstructive procedures of the masters. A 2:1 student:instructor and cadaver ratio ensures plenty of time for practice and discussion.

HANDS-ON WRIST ARTHROSCOPY WORKSHOP

Wrist arthroscopy - gold standard for diagnosing carpal instability and chronic wrist pain. Let the experts guide you towards mastery and confidence in various diagnostic and therapeutic arthroscopy techniques.

Registration

Please complete both sides of the registration form. Mail, fax, or e-mail a scanned copy to the secretariat by **31 Jan 2007**.

Places are **LIMITED to 20 participants** on a first come, first served basis.

Registration fee of SGD\$800.00 includes admission to all lectures and practical sessions, course manual, lunches and refreshments.
