Wrist Arthroscopy

2007 practical courses

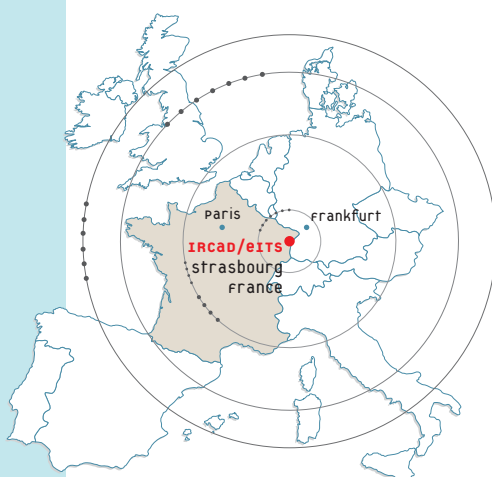

training on anatomical specimen

eits
European Institute of TeleSurgery

IRCAD/EITS
University of Strasbourg
FRANCE

General information

wrist arthroscopy has been around for 20 years as a diagnostic test. In the last 10 years, we have seen dramatic developments in its therapeutic application. wrist arthroscopy is an important skill for all hand surgeons, in exactly the same way as shoulder and knee arthroscopy is crucial for orthopaedic surgeons.

this difficult technique has to be taught using cadavers and specialized instrumentation so that the surgeon learns the arthroscopic techniques in a stepwise fashion.

basic course

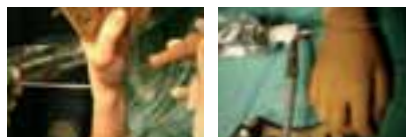

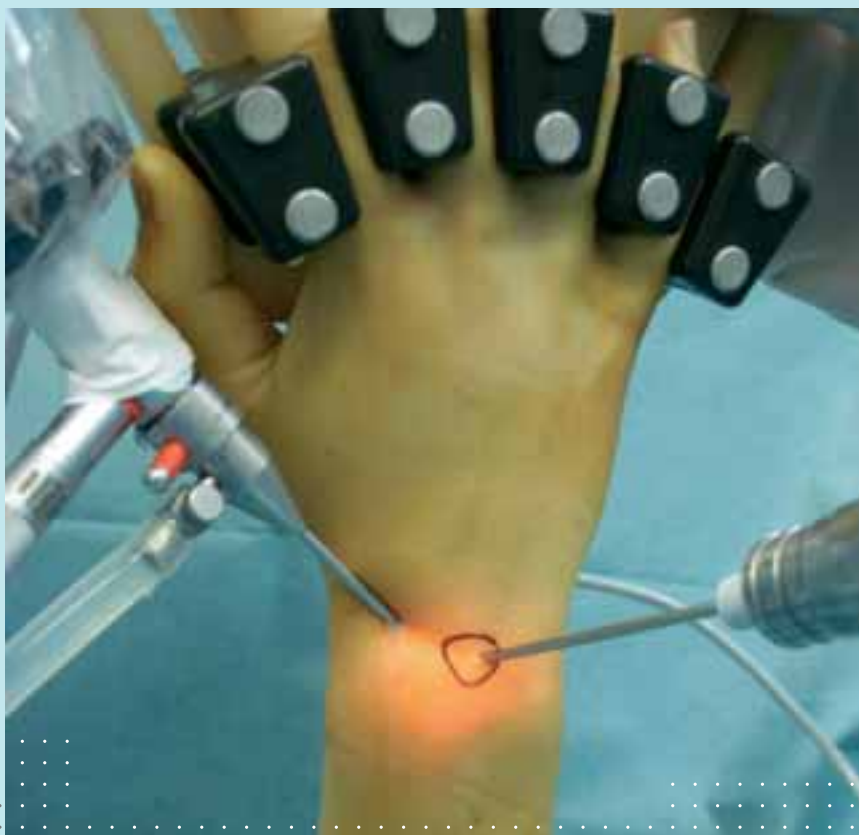

february 23rd and 24th

this course has 30 participants working on 15 surgical tables supervised by eight european experts in this field, i.e. 1 expert for 2 tables. each table is fully equipped with a camera of 2.4 mm storz attached to a video system. each video system is connected to the course director table, who performs live demonstrations prior to participants starting the procedures themselves. this course is intended for all surgeons interested in hand surgery and in particular in wrist surgery. after the course it should be possible to practice wrist arthroscopy competently and safely.

advanced course

november 23rd and 24th

this course has 20 participants working on 10 surgical tables supervised by 10 european experts in this field, i.e. 1 expert per table. the table will be fully equipped with a camera of 2.4 mm storz attached to a video system and the instrumentation required. the advanced course is intended for all those who have experience in the wrist arthroscopy field as well as those who have already attended the basic course. it enables the participant to carry out more sophisticated techniques with the help of international experts. teaching is both theoretical and practical and there is a high ratio of experts to participants.

course directors

del pinal f. (santander-s)
luchetti r. (san marino-i)
mathoulin c. (paris-f)

expected faculty

atzei a. (verona-i), cognet j.m. (strasbourg-f), darin f. (cortina d'ampezzo-i),
de smet l. (leuven-b), dumontier c. (paris-f), fontes d. (paris-f), garret j.
(lyon-f), goubau j. (brugges-b), haerle m. (stuttgart-g), leclercq c. (paris-f),
levadoux m. (toulon-f), lindau t. (derby-uk), liverneaux p. (strasbourg-f),
martinache x. (reims-f), massarella m. (perugia-i), rongières m. (toulouse-f),
roure p. (paris-f), samson p. (marseille-f), tunnerhoff h.g. (marbach am neckar-g),

Wrist Arthroscopy

february 23rd and 24th **basic course**
arthroscopic surgery

february 23rd

- 8.00 am shuttle-bus hotel - IRCAD/EITS
- 8.30 am Lecture 1: > wrist arthroscopic anatomy
> Portals
- 9.30 am Practical 1: > exploration of normal wrist joint
> removal of foreign body
- 12.30 pm Lunch at the institute
- 2.00 pm Lecture 2: > Resection of wrist ganglion
> styloidectomy
- 3.00 pm Practical 2: > Resection of wrist ganglion
> styloidectomy
- 6.15 pm shuttle-bus IRCAD/EITS - hotel

february 24th

- 8.00 am shuttle-bus hotel - IRCAD/EITS
- 8.30 am Lecture 3: > Principles of TFCC repair
> distal resection of the ulna
- 9.30 am Practical 3: > Principles of TFCC repair
> distal resection of the ulna
- 12.30 pm Lunch at the institute
- 2.00 pm Practical 4: > optional free extension
> absorbable screw, distal radius plate
> carpal button
- 4.15 pm shuttle-bus IRCAD/EITS - hotel

this programme may be subjected to modification
